This factsheet is for information purposes only and does not constitute an offer to sell or a solicitation to buy the units of the Fund referred herein. While every effort has been made to provide reliable data, no guarantees can be made as to its accuracy or completeness. Past performance is not indicative of future results.

150/50 TOTAL RETURN | LONG/SHORT QUANT STRATEGY

INVESTMENT STRATEGY

The Fund's investment strategy combines a robust multi-factor quantitative model and a systematic execution. Lakeroad securities' selection model combines value, momentum, sentiment and proprietary factors. It uses a pure bottom-up approach and is sector-agnostic.

INVESTMENT OBJECTIVES

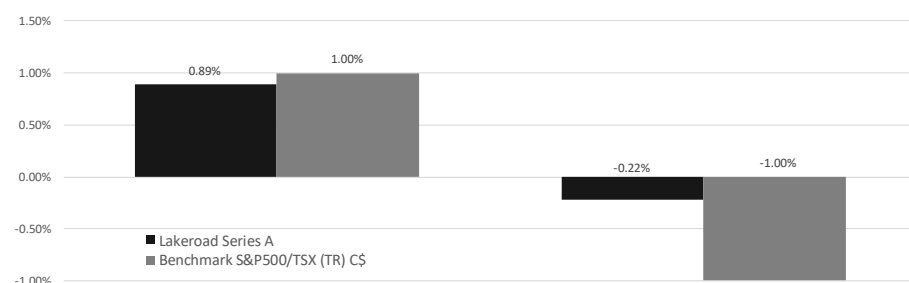

The Fund's investment strategy aims to maximize rolling 3-year return for the investors, while maintaining a low correlation to traditional benchmarks.

1. Monthly returns, calculated by the fund administrator using Series IA from 01/2012 to 10/2013 and Series A from 11/2013 to most recent, are net of fees and in Canadian dollars. Returns for 2012 were obtained in the account of the initial limited partner during a successful incubation period. 2. The benchmark is 71% S&P500 (TR) in CAD\$ and 29% TSX (TR). DISCLAIMER: Any information or opinion contained in this document does not consider specific investors' investment objectives, their individual financial situation and/or any investor specific requirement or need. Each investor should obtain financial advice from their advisors or other professionals before purchasing units of the Fund. An investor can potentially lose all or a significant portion of its investment. Unit values and performance will fluctuate and there is no assurance that the fund can maintain a specific net asset value. Your investment decisions should not be based solely on that performance.
