LAKEROAD

LAKEROAD HEDGE FUND L.P.

FACTSHEET | MARCH 2019

TOTAL RETURN | LONG/SHORT QUANT STRATEGY

INVESTMENT APPROACH

Our investment approach combines quantitative, systematic and machine learning strategies. Every day, our systems score over one million global equity and currency strategies, as part of what we call a “tournament”. Only the most consistent strategies survive.

INVESTMENT OBJECTIVES

The Fund’s investment strategy aims to maximize return for the investors, while maintaining a low correlation to equity markets.

1. Monthly returns (net of all fees) are calculated using the returns of each outstanding series weighted by their respective assets under management. Series returns are calculated by our independent fund administrator. Returns for 2012 were produced in the account of the initial limited partner during a successful incubation period. 2. The benchmark is the TSX (TR) from inception until 2014/06 and is composed of 75% S&P500 (TR) in USD$ and 25% TSX (TR) afterwards. DISCLAIMER: Any information or opinion contained in this document does not consider specific investors’ investment objectives, their individual financial situation and/or any investor specific requirement or need. Each investor should obtain financial advice from their advisors or other professionals before purchasing units of the Fund. An investor can potentially lose all or a significant portion of its investment. Unit values and performance will fluctuate and there is no assurance that the fund can maintain a specific net asset value. Your investment decisions should not be based solely on that performance.
